

A Sensational Strike

RAMSEY DISTRICT SCENE OF INTENSE EXCITEMENT OVER RECENT FIND--ASSAYS ARE STARTLING

Sensational reports continue to come in from Ramsey district and the West of all is that the reports are true. Word was received late last evening by a special messenger to the Appeal of a strike made yesterday on the Walkover claims at Ramsey, a strike that beats all others in that district.

The claims in question are situated about a mile from the town of Ramsey and excitement runs higher than

ever before in the camp.

Three assays were taken, the first running \$25,000 to the ton; the second, \$30,000 and the third reaching the high figure of \$35,000.

The entire town is rejoicing over the find and many are stampeding to that section. It is reported that an immense reduction plant is to be established at Hazen to reduce Ramsey ores and if that be the case the cost of reduction will be materially lessened.

This strike strengthens the great faith the Ramseys have always had in the district and erection of dwellings and places of business will be derided at once. There can now be no doubt of the permanency of the camp.

GIANT ELECTRIC PLANT

New York capitalists, whose purchase of the allied Fleischacker interests in Reno and the Sierras was exclusively announced in the Journal recently, have already begun the erection of a giant electric generating plant on the Feather river. The agents of the company have acquired a vast acreage of land and it is said that \$5,000,000 will be spent in the next three years in developing the property. An army of men is already in the field and President Velle has inspected the interests there which have been purchased. The announcement is reported that like operations will be made on the Truckee General Electric plant and the Nevada Power, Light and Water company.

It is generally supposed that the Western Pacific is behind the deal because the big plant is being erected along the route which its line traverses down the west branch of the Feather river. The plant will be made to utilize the water which will fall from the tunnel which it is proposed to cut through the mountain near Big Bend on the Feather at the point where it makes a horse shoe curve.

This tunnel was started several years ago by mining men when it was proposed to direct the water through the tunnel and mine the river for gold.

PROSPECTORS REJECTED

Indian police are patrolling the borders of the Walker River Indian reservation in order to prevent prospectors and mining engineers from inspecting the rich mineral land before the reservation is thrown open October 29th at noon. Yesterday a party of Greenwater mining men attempted to enter the district in an automobile and were ordered off the land.

MRS. JEFF DAVIS IS DEAD

NEW YORK, Oct. 17.—Mrs. Jefferson Davis, widow of the president of the confederacy, died here at 12:25 o'clock last night. Death was due to pneumonia. Although grave fears were felt from the first, Mrs. Davis' wonderful vitality, which brought her safely through a similar attack a year ago, gave hope of ultimate recovery until last night, when a decided change for the worse was evident and the attending physician announced that she was near. It was then believed that Mrs. Davis could survive the night, but she died slightly during the day. Mrs. Davis has for some years made her home in this city, where she has a wide circle of friends.

HORSE HIT BY POWER WIRE

The horse attached to the Pioneer laundry wagon was temporarily knocked out this morning by an electric power line wire. The wire had been blown from a pole and laid on the ground in the gateway leading to the county hospital. The driver swung the gate open and attempted to drive through it. The shoe on one of the front hoofs of the horse touched the wire and the horse dropped to the ground as suddenly as if struck in a vital spot with a bullet. It immediately rose and looked about in a dazed way, but is none the worse for the shock. It is noticed, however, that it travels at a livelier clip before the incident.—Chronicle.

SUDDEN DEATH

L. A. Guild of Dayton, familiarly known as "Brad" died suddenly yesterday morning. He complained of being ill Monday evening, but no one thought the end was so near. He has resided in Lyon county for many years and leaves a wife and seven children. He was a member of Dayton Lodge, No. 5, I. O. O. F.

BIG MAIL FROM SOUTHERN NEVADA

CHEYENNE, Wyo., Oct. 16.—Cheyenne mail clerks report that Nevada towns in the gold belt are sending out more mail, in proportion to population than any city or town on the Pacific coast. The mining companies which have been organized to operate in Nevada are mailing great quantities of reports and advertising literature and the distribution of mail is becoming a problem for the railway mail service. A few days ago Goldfield contributed ten pouches of letter mail in twelve hours, an enormous amount for a town of its population.

Eagles Ladies' Night

A CHARMING EVENING ENJOINED BY THE WIVES, SWEET-HEARTS AND FRIENDS OF THE EAGLES

Last evening the Fraternal Order of Eagles, Carson Aerie, 1006, opened their hall for the first time since their organization in this city to the ladies and the result was an enjoyable evening, so enjoyable that it will not be long before the entertainment of their fair sisters will be a regular feature of the society.

Over two hundred guests were in attendance and everyone present voted the affair a success in every particular. The program was begun by C. L. Deady who explained the origin and motive of the lodge and he was

followed by several members who entertained their listeners in a most able manner.

There were solos by Will Smyth, Albert Frye, Mrs. John Connolly, Dean Smith, Dr. Von Radesky. A quartette, composed of Fred A. Cushing, William Beals, Roger Heidenreich and Thomas Easton, with Will Smyth as accompanist, rendered several selections which were applauded to the echo.

After the program was concluded everyone was invited into the banquet hall where a bountiful repast awaited each and all and to which the guests did ample justice. The tables were tastefully decorated and the viands most tempting.

Dancing was then begun and the merry-makers lost no time in preparing for the entrancing waltz and two stop and the festivities were prolonged until a late hour.
